

## Special Consideration

---

Your PAWS Named Room displays have been specially created to complement the decor and design of the new facility, and they've been engineered to withstand the rigorous cleaning and maintenance required to keep the rooms safe and germ-free for their four-legged occupants.

We've tailored this water- and chemical-resistant presentation with stainless accents to complement the center's decor. Choose your favorite image from your Sutton Studios portrait session, or come in for an original sitting. When you select your image, you can customize your print with a title or just your pet's name. Then contact us directly to order your display.

### Single Display Print

---

For rooms with a single photograph.

16" x 16"  
(20" x 24" finished piece)  
\$350
